

Project Profile

Westgate Memorial Baptist Church
Beaumont, Texas

System Features

Westgate Memorial Baptist Church plays a vital role in the Beaumont, Texas community. Ford AV upgraded the church's AV technology to enhance the congregation's worship experience.

- **Audio System** | A digital audio network allows multichannel audio for multi-track recording and broadcast mixing
- **Video System** | 4mm direct-view video displays adorn both sides of the stage, along with a high-definition display in the video booth, streaming content from wall-mounted PTZ cameras as well as pre-recorded content
- **Integrated Control System** | A wall-mounted AV controller in the video booth is programmed to control the video walls and lobby displays
