

Project Profile

Western Midstream
Houston, Texas

System Features

Western Midstream Partners in The Woodlands, Texas, remodeled their executive boardroom, training rooms, CEO office, and CFO office using the latest AV technology.

- **Audio Systems** | 27 motorized boundary microphones recess in the table and combine with new speakers to provide a “voice lift” solution that ensures even coverage and speech reinforcement for each seat
- **Video Systems** | A 10' x 6' (136" diagonal) direct view LED display, multiple large 4K displays, PTZ cameras with voice tracking, podium confidence monitor, as well as a Microsoft Teams Rooms system, adorn the Executive Conference Room
- **Integrated Control Systems** | A 10" Microsoft Teams Room integrated touch-panel enables advanced room control
