

Project Profile

Shell Energy Stadium
Houston, TX

System Features

Home to Houston's Dynamo Pro-Soccer team, this stadium requires a robust and versatile AV system that supports officials and live broadcasts.

- **Sound Systems** | A distributed, stadium-wide, high output speaker system was installed, featuring over 90 speaker locations. A large DSP system and numerous standalone AV systems were also implemented in team stores, ticketing areas, clubs, corridors, and press rooms
- **Video Systems** | The stadium includes an HD video production suite with HD cameras, a broadcast switching system, a video routing system, a slow-motion system, a character generator, and intercom communication systems. Additionally, a CATV distribution network serves over 200 display locations
